WHO WE ARE

Etilweni PTY LTD is a South African based Consulting Engineering firm, which was established in 2011. We have a diverse portfolio of Professional Services with the aim of contributing towards the sustainable infrastructure development in South Africa and beyond.

As a multi-disciplinary empowerment company, we fuel African-led collaborations, economic growth and high returns for our partners. Most importantly, our strategic imperative is to continuously provide sustainable and life-improving environments for the people we impact.

When you partner with Etilweni, you gain access to a company with a cocktail of experts with proven track records within Engineering, Project Management, Infrastructure Development and Energy sectors.

OUR VISION

To successfully oversee our clients' projects from planning, design phase to project implementation stages through collaboration that inspires revenue and business growth – that's what makes us Pioneers of Evolution.

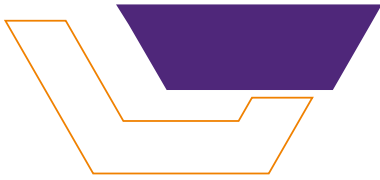

2

OUR CULTURE

We believe that to become experts at what we do, we must adhere and practice the following steps every day to become masters of our profession:

- We believe that engineering is multifaceted, malleable and rigorous without being conventional
- We believe in the learning process
- We believe in skills development

OUR SERVICES

CIVIL AND STRUCTURAL ENGINEERING

The range of civil and structural engineering services include:

- Water and sanitation
- Bridge and rail engineering
- Roads and stormwater
- Structural buildings

ROAD, TRAFFIC AND TRANSPORTATION

Our Road, traffic and transportation engineering discipline branches from the civil and structural engineering department.

This involves the planning, design, construction, operation, and maintenance of roads, bridges, and tunnels to ensure safe and effective transportation of people and goods.

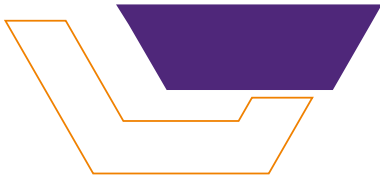

TOWN AND REGIONAL PLANNING

Our Town and Regional planners plan and develop the infrastructure of towns and cities to improve Spatial and social imbalances in urban and rural areas across the country.

MECHANICAL AND ELECTRICAL

Our seasoned staff of skilled service engineers are experienced in all areas including planning, analysing, designing, optimising, installation, commissioning and computerised control systems.

OUR SERVICES

QUANTITY SURVEYING

Etilweni PTY Ltd has experienced Quantity surveyors who assist clients to make informed decisions regarding cost efficiency of the construction projects.

PROJECT & PROGRAM MANAGEMENT

Etilweni PTY Ltd offers a range of project and programme management capabilities that ensure that projects remain on course and on schedule.

ARCHITECTURAL & DRAFTING SERVICES

The company has in-house qualified and experienced architects who have completed a range of plans and drawings for different projects.

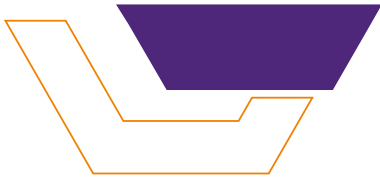

PROCUREMENT AND SUPPLY

Etilweni PTY Ltd has adopted a procurement policy that the company uses to source material and equipment.

Sectors include:

- Mining
- Rail
- Manufacturing
- Construction
- Transportation

OUR PROJECTS & EXPERIENCE

ENGINEERING AND PROJECT MANAGEMENT SERVICES FOR OUTAGES PLANNING - ESKOM

The project involved the planning, coordination and execution of all planned and unplanned outages for 15 Eskom Power Stations. The project was executed by Boiler Experts, Balance of Plant Experts and Electrical and Instrumentation Experts and the functions involved Planning and Scheduling, FME Management and Compliance, Electrical systems, Civil Engineering services and Balance of plant.

INFRASTRUCTURE PROVISION AND UPGRADING FOR THE SOKESIMBONE HOUSING PROJECT - KWADUKUZA MUNICIPALITY

The project plan was to execute a planned major rehabilitation of the sewer in order to preserve and prolong the functional life of the pipeline and supporting bridges. The technical interventions entailed detailed hydraulic study and modelling, security evaluations, environmental study, project specifications, construction procurement, construction and close-out.

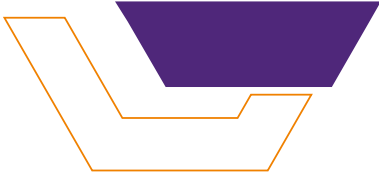

REFURBISHMENT OF BOREHOLE SYSTEMS WITHIN GIYANI WATER PROJECT - LEPELLE NORTHERN WATER

Etilweni was appointed by Lepelle Northern Water for the refurbishment of 40 borehole systems within Giyani water project in order to deal with acute shortages of water in the area. The Project included the Conditional Assessment, Civil, Electrical, Mechanical Engineering and Project Management.

REHABILITATION OF BRUNTVILLE INTERNAL ROADS - MOOI-MPOFANA LOCAL MUNICIPALITY

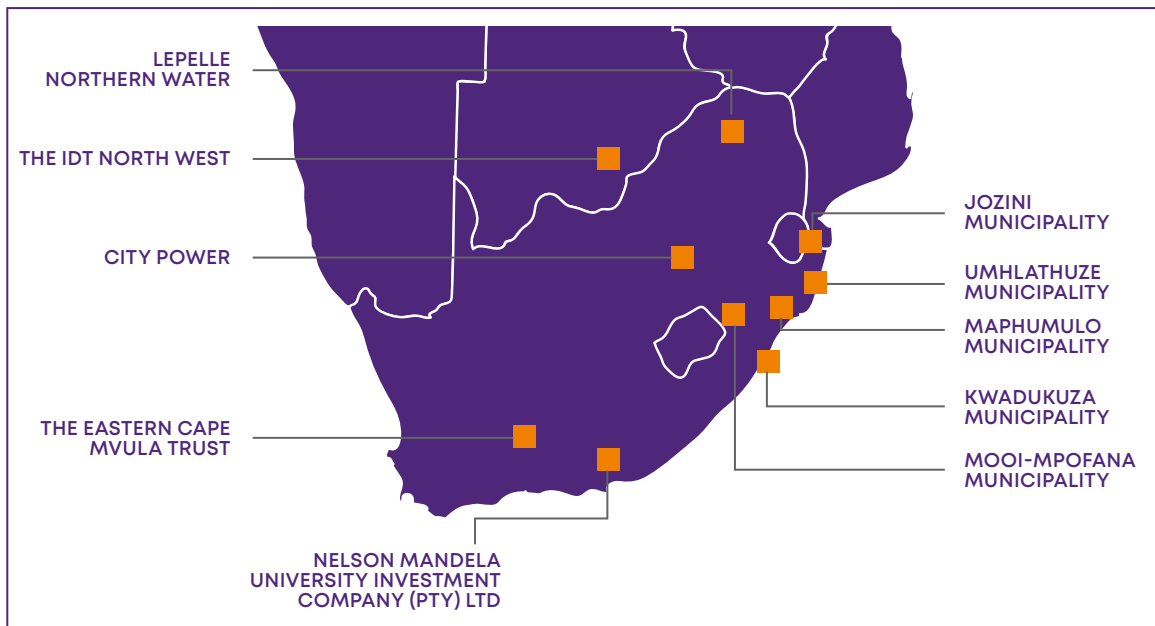

Etilweni was appointed by Mpofana municipality for Design Engineering and Supervision for the rehabilitation of four (4) roads in Bruntville township under Mpofana Municipality. The work included Ripping and recompacting 150mm layer of the existing top layer, construction and a 100mm layer of G2 material, construction of a 30mm asphalt layer and Rehabilitation of the existing concrete kerbs.

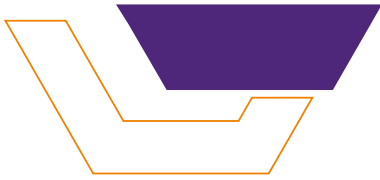

PROJECT FOOTPRINT

OUR PROJECT FOOTPRINT IN SOUTH AFRICA

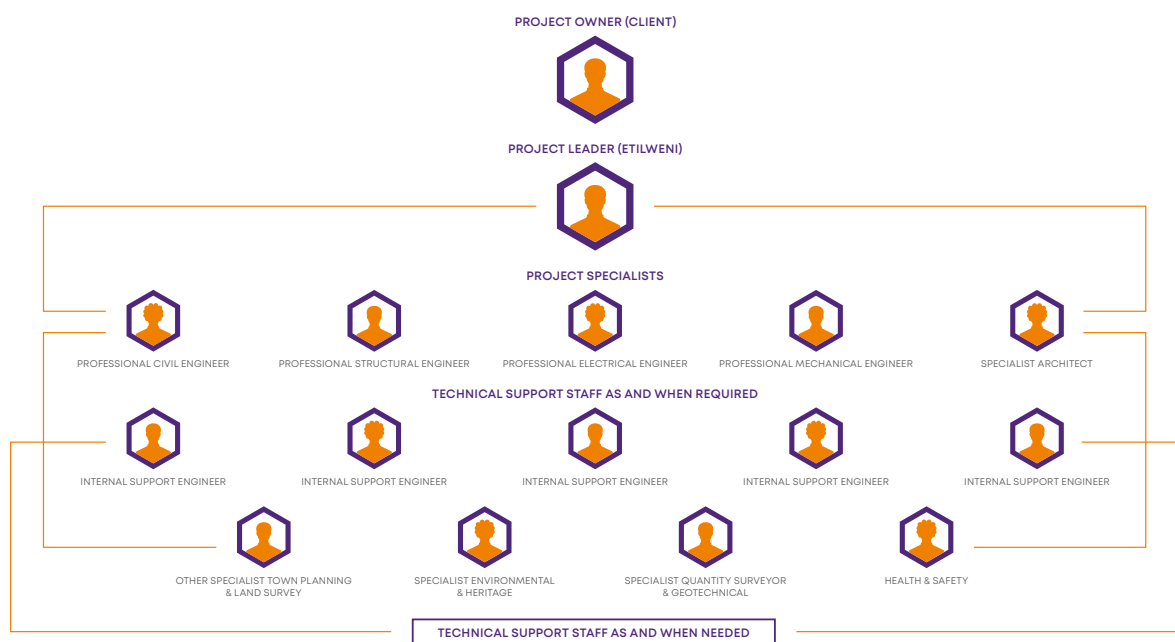

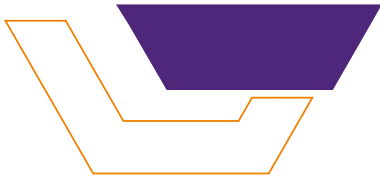

PROJECT MANAGEMENT

PROJECT MANAGEMENT STRUCTURE

Our technical organogram is set to define the approach to be used by the Project Management Team to deliver the intended scope of work.

OUR PROJECT MANAGEMENT APPROACH MODEL

QUALITY ASSURANCE

OUR PROMISE TO OUR CLIENTS

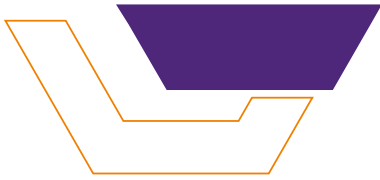

- Engender a culture of responsibility and accountability in all staff members.
- Capitalise on new technological developments and sustainable efficiencies.
- Provide effective solutions taking into account capital and operating costs for each application.
- Maintain accurate and timeous cost reporting and control throughout the duration of the project.
- Continually reassess designs against the project goals, which may vary to suit changing business conditions.
- Maintain close interaction with other designers to optimise overall performance and cost control.

- Continually re-evaluate the client's brief against market conditions and new technologies.
- Ensure that a director is in overall charge of every project.
- Empower local communities.

We only engage Professional Engineers, Technicians and Technologists registered with the following professional bodies:

- Engineering Council of South Africa (ECSA)
- Association of South African Quantity Surveyors (ASAQS)
- The South African Institute of Civil Engineers (SAICE)
- Project Management Institute (PMI)
- The South African Council for the Project and Construction Management Professions (SACPCMP)

CORPORATE SOCIAL RESPONSIBILITY

Etilweni PTY LTD continuously partners with the community and government to address social challenges and sustained economic growth. We have dedicated ourselves to creating a platform for community development with every project we acquire. We have, in the past, partnered with local organisations to sponsor different events.

We are committed to actively participate in bringing solutions to the challenges that face our communities as identified also by the United Nations Sustainable Development Goals. From 2020, we are establishing a long-term Educational fund (assistance program) and collaborations with relevant institutions which will assist deserving students to further their education. We realise that access to quality education is key in solving most of the challenges our community faces.

COMMUNITY DEVELOPMENT

We work alongside the community to bring sustainability, development and social improvement.

MENTORSHIP PROGRAMME

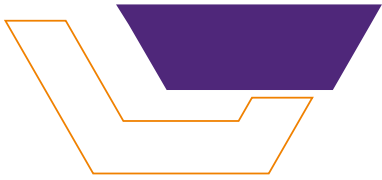

Etilweni PTY LTD aims to bring development and youth empowerment in Africa by decreasing the unemployment rate. Our internship programme is created to mentor and guide the youth towards bettering themselves, the community and the economy while bringing innovation and excellence to engineering.

We do this by training and equipping young minds so that they are ready for the marketplace and are ready to economically contribute their skills in the broader community. Etilweni works with various departments to bring opportunities and skills to the youth.

ETILWENI COVID-19 RESPONSE

In response to the Covid-19 pandemic that affected the global community, Etilweni partnered amongst others with the following institutions to distribute food parcels; Kings Covenant Christian Centre in Naturena, Greater Giyani Municipality, and DRT Municipality. In total, we donated over 500 food parcels and we are grateful to all the institutions that allowed us to partner with them.
